

MAME YACINE KEBE

Director Safety Environment and Quality Dakar Blaise Diagne Airport – SENEGAL.

Seconded to ACI Africa in charge of Strategy and Programme Development

Coordinator of ACI Africa regional committees.

Since March 2020, active member of ACI Africa Steering Committee for Airports Recovery.

Mrs Yacine KEBE is an Air Navigation Engineer, a Safety Management System Expert and accredited IAP (ACI/ICAO Airport Management Professional Accreditation Program).

From 2005 to 2008 she has worked at ASECNA National Aeronautical Activities Administration in charge of aeronautical information and regional aerodromes. From 2008 to 2012 as Head of Airside Operations at Dakar International Airport she developed and coordinated the training for the airside driving license.

From 2013 to 2017 she was the Quality and Safety Manager for DAKAR International Airport. In charge of safety internal audits and stakeholders' audits, she was the Senegalese Airports Agency's designated focal point for continuous monitoring in coordination with the Civil Aviation Authority.

Since the opening of the new Dakar Blaise Diagne airport in December 2017, she added Environment to her duties as QSE Manager, leading the airport carbon management programme and sustainable transition.

She has lived in Senegal, Spain, France and Niger and is fluent in Spanish, English and French.
