

MARÍA DE LA RICA

Environment Expert EU-CORSIA Africa & Caribbean

María de la Rica is Senior Environmental Consultant at Vertis Environmental Finance.

She joined Vertis in September 2017 and is based in Madrid, working mainly in the Aviation Services Department. She is responsible for project development and management, providing technical support to Vertis Environmental Finance's aviation clients in EU ETS compliance and CORSIA implementation.

Before joining Vertis she worked as Environmental Expert at SENASA, providing technical support to Spanish Civil Aviation Authority on aviation environmental topics such as EU ETS, CORSIA and biofuel topics. During this period, she represented Spain in international aviation and environment related working group, including an ICAO working group on aviation alternative fuels.

In parallel to this, she worked as University Professor at the Polytechnic University of Madrid.
