

BOB MUGISHA

Bob is a Safety Manager for RwandAir (Rwanda's national carrier). He is also responsible for the implementation of the Carbon Offsetting and Reduction program (CORSIA) for RwandAir, and he sits as a member of the IATA Safety Group (SG) which monitors aviation safety problems identified by airlines and develops strategies to continuously improve safety across the industry.

He is an FAA Licensed Flight Dispatcher with vast knowledge in Flight planning, Aviation Safety Management, Aviation emergency response planning, and fuel efficiency management. A graduate of Jeppesen Aviation Academy, Bob has immense knowledge and experience in flight operations management, with hands-on experience in flight planning, route optimization, aircraft performance calculation, and fleet planning and scheduling.

He is a holder of a Master of Business Administration (MBA) from African Leadership University (ALU) with a focus on leadership.
